

SECOND CHANCES AND REALIZED DREAMS WITH PRAYATNA

PRAYATNA
Emphasis on ability rather than disability

Every child dreams, even if they don't know how to make them a reality. At Prayatna, Sri Arunodayam's vocational training center, youngsters with intellectual disabilities are offered a second chance at life in a place where their dreams take root, where potential is nurtured, and where hope is reignited.

Established in 2012, Prayatna equips these youngsters with practical skills for sustainable livelihoods and a chance to craft a fulfilling life. The center's nurturing, inclusive environment helps them engage, learn, share, and develop positive work attitudes. By tapping into their abilities, Prayatna helps them reach their full potential, and the income generated from their work contributes to their rehabilitation. This financial stability empowers them to live autonomously and pursue their dreams.
